

Zahra Saadati

Brief History about me

I am Zahra Saadati, a Web Designer & Developer and Artist, born and raised in Tehran.

I am interested in applying for the position of Web designer at Your company.

I recently graduated with a Bachelor of IT engineering degree from the University of Azad Tehran Shomal.

I have 2 years of experiences in this field and worked as an intern in an IT company just for 3-month last year, unfortunately this company went bankrupt and I lost my job and I have been working as a freelancer up until now.

*There is a list of my **works experiences, education, skills and achievements** on this link:*
